

TOWEF0 Toward Effluent Zero	Partner ENEA	Identification code TM-108-010	Rev. 0	Dis CO	Pag. 1	of 3
---------------------------------------	------------------------	-----------------------------------	-----------	-----------	-----------	---------

ANNEX 9
SIMPLIFIED LCA QUESTIONNAIRE

TOWEF0 Toward Effluent Zero	Partner ENEA	Identification code TM-108-010	Rev. 0	Dis CO	Pag. 2	of 3
--------------------------------	------------------------	-----------------------------------	-----------	-----------	-----------	---------

DATA SHEET

Product:

Producer	Name:	
	Address:	
	Contact Person:	Phone:

Short description of the production process:

Co-products (specify if secondary products are obtained from the same process):

Year which the data refer to:

Raw Materials

<i>material</i>	<i>Quantity/ Product unit *</i>	<i>Location of the supplier</i>
Water consumption		

*specify the measurement unit

Energy

<i>source</i>	<i>Quantity/ Product unit*</i>	<i>Type of Supply (network, self-production,..)</i>
Electricity		
Methane		

TOWEF0 Toward Effluent Zero	Partner ENEA	Identification code TM-108-010	Rev. 0	Dis CO	Pag. 3	of 3
--------------------------------	------------------------	-----------------------------------	-----------	-----------	-----------	---------

.....		
.....		

* specify the measurement unit

Air emissions (see footnote)

<i>Substance</i>	<i>Quantity/Product unit *</i>	<i>Process</i>

* specify the measurement unit

Water emissions (see footnote)

<i>Substance</i>	<i>Quantity/Product unit *</i>	<i>Process</i>

* specify the measurement unit

Solid waste

<i>material</i>	<i>Quantity/Product unit *</i>	<i>Process</i>

* specify the measurement unit

NOTE: If the concentration data from chemical analysis are available, the datum of interest is obtained as follows:

concentration (e.g. mg/Nm³) X flow (e.g. Nm³/h) X annual operating hours of the process
annual production
